Road District Report January 2025

Muirhead Bridge: The easement price has been agreed upon for the bridge replacement and we will be moving towards the letting of the construction contract. The resurfacing of Muirhead Road from Russell Rd. to Bowes Rd. has been added to the bridge construction costs and will be completed the same time as the bridge deck surfacing. Completion time fall of 2025.

Road Salt for 24/25 winter: The salt bid came in at \$76.00 per ton for dry white road salt, that is about ten dollars per ton cheaper than last year. Our bid is through the County this year. The new vendor is Skyline Salt Co. and our account and delivery information has been set up. We are ready to receive salt.

Our chemical treatment price came in at \$1.14 per gallon, it stayed within 5 cents of last year's prices.

We have ordered 250 tons of salt so far this season and we have ordered 4500 gallons of pre-wet chemical.

2025 Resurfacing: We are working with WBK engineering to get cores taken on three roadways which will possibly be candidates for resurfacing over the next three years. The core sample will help us make the correct decisions as to resurfacing, repaving or a complete recycle/replacement of the roadway. Once we have the cores, we will be able to establish a timeline for the needed repairs.

Utility work in Plato: The solar farm project on Muirhead is close to being completed.

ComEd is looking to do a full cable replacement of the old infrastructure in the Bowes Bend subdivision and in Chippewa Pass later this spring.

Bowes Bend is pending from possible permitting for work in wetlands.

If you witness fly dumping anywhere in town, please report it to the Sheriff's department at 1-630-232-8400.

We are still measuring new improvements when the weather permits.

We continue to update properties as we find new information. We are going through aerial views of farmland and making necessary changes to send to the County. Some cropland or wasteland areas have changed over the years. We are also trying to verify if they are still farming.

We will continue to measure as the weather permits. We currently have 37 homes that are complete that will be processed for 2025. We are adding the extra new construction that we measured last year (decks, patios, pools, finished basements, etc) and they will be given a Home Improvement Exemption.

If you have any questions, please let me know.

Respectfully Submitted,

Janet Roush – CIAO
