We are still measuring new improvements when the weather permits.

We continue to update properties as we find new information. We are going through aerial views of farmland and making necessary changes to send to the County. Some cropland or wasteland areas have changed over the years. We are also trying to verify if they are still farming. I am sending letters to property owners that we are unsure if they are farming.

We are verifying that the information the County has is the same information we have to begin the 2025 tax year.

It looks like we have 6 lots left in Highland Woods to sell to a builder (probably Pulte.)

Bowes Creek has only 2 permits left to build on. We have 5 homes to measure.

If you have any questions, please let me know.

Respectfully Submitted,

Janet Roush – CIAO
